Alexandria, Egypt | +201110973693

Results-driven Software Developer with more than 4 years of experience in backend development, web application architecture, and system optimization. Strong expertise in ASP.NET, C#, SQL Server, and scalable system design. Proven ability to reduce production bugs, optimize performance, and implement CI/CD pipelines. Experienced in Agile environments and cross-functional collaboration.

Work Experience:

Digilians – Digital Pioneers Initiative | MCIT and The Egyptian Military Academy Dec 2025

- Participants complete practical projects and technical assessments to ensure readiness for real-world software development roles.
- The program focuses on building strong foundations in programming, software engineering principles, and modern development technologies. It includes hands-on projects, real-world problem solving, and teamwork-based development environments to simulate industry experience.

Back End Developer Jun 2020 - Jul 2021
Easy Index | Alexandria, Egypt

- leading to a 30% decrease in production bugs reported by QA over a 6-month period.
- Allowing the system to scale to 5x the previous traffic volume without increasing cloud infrastructure costs.
- Authored a comprehensive technical documentation wiki and onboarded 5 junior developers, reducing the average ramp-up time from 4 weeks to 2 weeks.
- Troubleshoot software issues and provide technical support.

Dot Net Web Developer May 2019 - Sep 2020
Aaser Media for Web Solutions | Alexandria, Egypt

- Developed desktop and web applications to meet user needs
- Optimized database queries and implemented Redis caching, resulting in a 40% reduction in page load time and improving the overall user experience for 10k+ monthly active users.
- Architected and deployed a CI/CD pipeline using GitHub Actions, which reduced deployment time by 60% and eliminated manual configuration errors.
- Led the migration of a legacy frontend from jQuery to React, resulting in a 25% improvement in Lighthouse performance scores and reducing the codebase size by 15,000 lines of code.

Projects:

Smart Sale https://github.com/youseftawfik/Smart_Sale

- POS Desktop Application for managing small business.

Soft Skills:

- Leadership & Mentorship.
- Collaboration & Conflict Resolution.
- Adaptability & Learning Agility.
- Problem-Solving & analytical skills.
- Communication & Stakeholder Management.

TECHNICAL SKILLS:

- **Programming Languages**: C#, JavaScript, T-SQL.
- **Frameworks & Technologies**: ASP.NET MVC, .NET Core, Entity Framework, React.
- **Web Technologies:** HTML5, CSS3, REST APIs.
- **Databases:** Microsoft SQL Server, SQL.
- **DevOps & Tools:** Git, GitHub Actions, CI/CD Pipelines.
- **Architecture & Concepts**: OOP, MVC Architecture, Software Development Life Cycle (SDLC), Performance Optimization.
- **Other Tools:** Crystal Reports, SEO.

Education:

Alexandria University Jul 2013 - Jul 2017
Bachelor of Commerce Management Information System

Languages:

English (Proficient)
